APPROVED TICKET SALES PROVIDER

SECURITY & EVENT SAFETY

All Bygrave wood events use Security and Event Solutions Ltd. We know how important it is for your guests to have a positive experience and the team are the antithesis of 'bouncers'. The experienced, trained team are event professionals and respected by the local authorities – it's a winwin!

Comprehensive event safety is both a strict requirement of the license and a legal duty nobody can afford to get wrong. Our approved safety suppliers are among the few experts in the country who are trained and experienced in the breadth of areas required and can produce documentation to the standard expected by the authorities.

BAR OPERATIONS & FOOD CURATION

We have an excellent one-stop-shop supplier who can provide an eclectic range of food and beverage options tailored to your event while ensuring you a healthy income stream. Want to use some of your own foodie faves? No problem – our supplier will add them to the mix.

PLANNING FOR SUSTAINABILITY

OUR GREEN POLICY

OUR GREEN CREDENTIALS

The Farr family have been farming this land for 250 years, long before we knew the truth about climate change.

We were green then without knowing it and we are green now by choice.

We know that we have to protect the environment and are always ensuring that we are reducing our impact on it year on year.

The whole focus of the event space is driven by our ties to the environment around us.

That is where we work and live and we will always look after it and we ask that you do too.

RECYCLING & WASTE & RE-USE

Bygrave wood and ECO waste work hand in hand to make sure we achieve net zero to landfill.

Our partners Eco waste are based under a mile from the event site and they remove and recycle all waste for us.

<https://www.ecowr.co.uk/recycling-policy/>

This is a fantastic asset to have as our next door neighbours.

BAR OPERATIONS AND FOOD CONCESSIONS

No Single use plastic bottles, glasses and straws or eatware.

Reusable PET Festival glasses available

Comprehensive 'behind scenes' breakdown and recycling process

A 'leave no trace' policy ensuring we maintain the natural beauty of Bygrave.

Drinking water available across the whole site so we encourage people to bring their own bottle for re fills..

KEEP IT CLEAN AND KEEP IT GREEN!!!

BIODIVERSITY

Biodiversity is a key factor in our future planning for the site.

Every year we carry out tree planting, wood management and general health checks across the land.

This consists of crops such as sunflowers, maize, mixed bird seed covers and wild meadows that all wildlife habitats thrive from.

We are particularly proud of our regeneration woodland programme that naturally invites all local wildlife.

From September we push our sites net zero carbon footprint by returning the land to grazing sheep in an 8 month organic cycle.
